REACT DEVELOPER

<https://www.linkedin.com/in/shan-tirmizi-7b3114159/>

London

PROFILE

Extremely motivated **London** based **React** developer who is passionate about developing and maintaining elegant yet user-friendly Web apps.

SKILLS

React | Javascript | Node Js |

CSS | Ruby on Rails | Ruby |

EDUCATION

Le Wagon

OCT 2020 - DEC 2020

9-week intensive Bootcamp focusing on Ruby on Rails, HTML, CSS, Bootstrap, JavaScript, SQL, PostgreSQL, MVC Architecture, Object-Oriented Programming, Git, GitHub and Heroku.

Strodes College

SEP 2015 - JUN 2017

Physics, Maths and Economics

EXPERIENCE

Freelance Facebook Marketing

JAN 2019 - JAN 2020

I did Facebook marketing and content creation for Real estate agents & mortgage brokers. I would run and optimise their ad campaigns to get the lowest cost per customer acquisition and design ads for them based on their specification and their brand.

PROJECTS

E-commerce Project

<https://shan-ecommerce.netlify.app/>

A Mobile-first **E-commerce** website built using **React**. Users can log in using **auth0** and checkout using **stripe**. Users can also search and sort the products by price & category.

Covid-19 Tracker

<https://shan-covid-tracker.netlify.app/>

A Covid-19 Tracker built using **React**. It tracks the number of cases, recovered & deaths & plots it on a **map** built using Open Street Map and on charts built using **Chart Js**. The data is fetched from an **API** from disease.sh.

GitHub User Search

<https://shan-github-search.netlify.app/>

A GitHub Search app built using **React**. You can search for GitHub users and it will fetch the data from GitHub's **API** and display their info accompanied by four charts built using Fusion **Charts**

Book Exchange

<https://airbnb-andreeaionescu97.herokuapp.com/>

An **eBay** like book exchange Web App built using **Ruby on Rails** with two other people. User can sign in and upload books to lend and other users can rent them for a specified period of time.

Smart Home Energy Management

<http://www.smart-home-ems.com/>

A Smart Home Energy Management system built using **Ruby on Rails**. This web app tracks the energy usage from different devices and plots the data on stylish charts build using am charts.

Crypto Tracker

<https://shan-crypto-tracker.netlify.app/>

A colourful Crypto Tracker built using **React**. The data is fetched from Coingecko's **API**.

Architect Portfolio

<https://shan-architect-portfolio.netlify.app/>

A Stylish Architect Portfolio built using **React**.

Tesla Mock-up

<https://shan-tesla-mockup.herokuapp.com/>

A Mockup of tesla.com built using **React**.
