London

PROFILE

Extremely motivated **London** based **Full-stack React** developer who is passionate about developing and maintaining elegant yet user-friendly Web apps.

SKILLS

React | Javascript | Node Js | API

CSS | Ruby on Rails | Ruby | Firebase

EDUCATION

Le Wagon

OCT 2020 - DEC 2020

Le Wagon is a 9-week intensive Bootcamp that focuses on Ruby on Rails, Ruby, CSS, Bootstrap, JavaScript, SQL, PostgreSQL, MVC Architecture, Object-Oriented Programming, Git, GitHub and HTML.

Strodes College

SEP 2015 - JUN 2017

Physics, Maths and Economics

EXPERIENCE

StepJump Media

Founder

JAN 2019 - JAN 2020

I did Facebook marketing and content creation for Real estate agents & mortgage brokers at StepJump Media. I would run and optimise their ad campaigns to get the lowest cost per customer acquisition and design ads for them based on their specification and their brand.

PROJECTS

E-commerce Project
https://shan-ecommerce.netlify.app/
A Mobile-first **E-commerce** website created using **React**. Users can log in using **auth0** and checkout with **stripe**. Users can also search using the search bar and sort the products by price & category.

Covid-19 Tracker
https://shan-covid-tracker.netlify.app/
A **Covid-19** Tracker created using **React**. It tracks the number of cases, recovered & deaths and plots it on a map created using **Open Street Map** and on charts created using **Chart Js**. The data is fetched from an **API** from disease.sh.

GitHub User Search
https://shan-github-search.netlify.app/
A GitHub Search app built using **React**. You can search for GitHub users and it will fetch the data from GitHub's **API** and display their info accompanied by four charts created using Fusion **Charts.**

Book Exchange
https://airbnb-andreeaionescu97.herokuapp.com/
An **eBay** like book exchange created using **Ruby on Rails**. User can sign in and upload books to lend and other users can rent them for a specified period.

Smart Home Energy Management
http://www.smart-home-ems.com/
A Smart Home Energy Management system created using **Ruby on Rails**. This web app tracks the energy usage from different devices and plots the data on stylish charts build using am charts.

Instagram Clone
https://shan-instagram.netlify.app/
An Instagram clone created using **React** & **Firebase**. This app container user authentication, the ability for users to post and comment. Moreover, users can also view posts from other users.

Crypto Tracker
https://shan-crypto-tracker.netlify.app/
A colourful Crypto Tracker created using **React.** The data is fetched from Coingecko's **API**.
